Bordo Granit X-Plus 6500

black

red

white

Operation and use

- Very good protection at high theft risk
- Recommended for securing high quality bicycles

Technology and features

- 5.5 mm steel bars with extra soft 2-components coating to prevent damage to the bicycle's paintwork
- Colour-matching silicone cover for the lock body with „soft touch“ properties
- Link construction offers compact folding
- ABUS Link-Protection-Shield offers high saw protection of the links
- The bars, the links, the case as well as supporting elements of the locking system are made of special hardened steel
- ABUS X-Plus cylinder for extremely high protection against manipulation, e.g. picking
- Two keys are supplied with the lock, one LED-lighted
- ABUS Code Card for additional or replacement key

Holder and transportation

- Easy transport thanks to a practical rattle-free bag
- Flexible mounting with non-slip velcro strip or screws for the bottle holder device

Tip

- This lock can be ordered keyed alike to other locks. This means several locks would match one key, respectively key code
- Ideal combination of resistibility, flexibility, weight and transport size

Operation and use

- Good protection at medium theft risk
- Recommended for securing good bicycles
- The longer the bars, the easier the bicycle can be locked to a fixed object

Technology and features

- 5 mm steel bars, with extra soft 2-components coating to prevent damage to the bicycle's paintwork
- Colour-matching plastic cover for the lock body
- Link construction allows compact folding
- The bars, the case, the links as well as supporting elements of the locking system are made of special hardened steel
- Bars are linked with special rivets
- Two component moulded digits guarantee life-long visibility
- Individually settable code

Holder and transportation

- Easy transport thanks to a practical rattle-free bag
- Flexible mounting with non-slip velcro straps or screws at the bottle holder device

Tip

- The combination lock is very well suited for the use by several people
- Ideal combination of resistibility, weight and transport size
