A **THE RACK PACK CAN BE QUICKLY AND EASILY MOUNTED** by means of the trusty Quick Lock system. Safety catches within the hooks secure the pannier bag to the rack bars. Lifting the pannier by the handle strap will automatically unlock these catches. The lower variable hook keeps the pannier from swinging outwards and can be turned 180 degrees. The mechanism is fast and simple to adjust. Suitable for cargo rack bars up to 16mm in diameter. Mounting rails which are 8 mm or 11 mm in diameter can be accommodated by using the reducer inserts provided.
